Dear Mr Steib:

The subject document was reviewed by William Earle of SulTRAC, Inc. A copy of his technical review comments is attached. Please provide responses to the comments along with the corresponding Work Plan revisions.

U.S. EPA continues to review the *Additional Excavation of DS Tributary Work Plan*, URS, Inc., submitted by URS on behalf of Detrex June 8, 2011.

We would like to schedule a teleconference or a meeting to discuss both projects. Let's follow up after the holiday to set up a date and time.

I can be reached by phone at 312 886-4843 if you have any questions.

Sincerely,

W. Owen Thompson
